

EvenSkin

ESSENTIALS

EvenSkin Essentials Range

EvenSkin Essentials are high quality pharmaceutical grade skincare.

Our Essentials Range consists of active AHA/BHA ingredients, topical vitamins and bases that allow for the best absorption. Our Essentials have been rigorously tested and are proven to work.

Just like our EvenSkin Range, the Essentials are paraben and sulphate free, have no artificial colours and fragrances, are cruelty free, and are Australian made in a purpose-built skincare laboratory.

Pumpkin Enzyme Peel

Brighten, Rejuvenate and Refresh with our Pumpkin Enzyme Peel.

Wholesale 100ml

Discover the power of our Pumpkin Enzyme Peel. Designed for all skin types containing over 100 beneficial nutrients and antioxidants including vitamin A, and C as well as beta carotene, potassium and zinc in a glycolic, salicylic acid and pumpkin enzyme formulated blend.

Our Pumpkin Enzyme Peel protects the skin against free radical damage as it evens out the complexion by increasing blood circulation, gradually lightening pigmentation and improving skin elasticity while removing dead skin cells to decongest and purifying the pores of the skin.

With each treatment, you're able to offer your clients the satisfaction of refined, energized and smooth skin with improved performance of their EvenSkin home care.

Ingredients:

Pumpkin Enzyme 10%, Glycolic Acid 10%, Salicylic Acid 10%.

Directions:

1. Apply 3.5-4ml of peel solution to clean skin using cotton tips or fingertips (with gloves).
2. Leave on the skin for 5-20 minutes depending on the skin type/condition.
3. Thoroughly remove with a damp, cool facial cloth or cold compress.
4. Always apply broad-spectrum SPF 15+ or higher to your client's skin after the peel treatment and before they leave your clinic or salon.

Glycolic Acid 30% Peel

Rejuvenation and restoration for all skin conditions.

Wholesale 100ml

Glycolic Acid is a clear, odourless, water-soluble Alpha Hydroxy Acid with a small molecular size to enhance skin penetration and, when applied topically to the skin, rapidly dissolves the cellular bonds that anchor skin cells. Once dissolved, the shedding of dead skin cells occurs to promote skin renewal and improved cell proliferation.

We recommend Glycolic Acid 30% Peel treatments for skins showing signs of premature ageing, fine lines, pigmentation and solar keratoses, as well as blemished and acne skin conditions.

Our Glycolic Acid, 30% Peel, will activate collagen production and speed up cell turnover and renewal when used consistently.

Ingredients:

Water-soluble Glycolic Acid Solution.

Directions:

1. Apply 3.5-4ml of peel solution to clean skin using cotton tips or fingertips (with gloves).
2. Leave on the skin for 5-20 minutes depending on the skin type/condition.
3. Thoroughly remove with a damp, cool facial cloth or cold compress.
4. Always apply broad-spectrum SPF 15+ or higher to your client's skin after the peel treatment and before they leave your clinic or salon.

BHA Salicylic Acid 20% Peel

Correct, clear, and clarify problematic skin conditions.

Wholesale 100ml

Salicylic Acid is an oil-soluble beta-hydroxy acid that effectively exfoliates dead skin cells from within the skin's follicles.

Our BHA Salicylic Acid 20% Peel is perfect for Oily/Acne skin conditions as it provides antibacterial and anti-inflammatory benefits while deeply exfoliating within the follicle to decongest and unclog the skin to alleviate blackheads, pimples, and pustules.

We recommend our BHA Salicylic Acid 20% Peel to assist in fading pigmentation patches and solar keratosis and the superficial discolouration associated with acne scarring.

Ingredients:

Oil-soluble Salicylic Acid.

Directions:

1. Apply 3.5-4ml of peel solution to clean skin using cotton tips or fingertips (with gloves).
 2. Leave on the skin for 5-20 minutes depending on the skin type/condition.
 3. Thoroughly remove with a damp, cool facial cloth or cold compress.
 4. Always apply broad-spectrum SPF 15+ or higher to your client's skin after the peel treatment and before they leave your clinic or salon.

Hydro Jelly Mask Range

Wholesale 500g

Directions:

1. Prepare client with a headband, tuck in tissues to protect headband from any drips.
2. Add 2 scoops of mask to a bowl, Do not add water all at once. Slowly add in a dribble of water (approximately 1-1.5 scoops) Start mixing until you get an even consistency.
3. Apply to the face immediately to avoid mask from starting to set.
4. Leave for 20 minutes until the paste forms into a jelly like film, then gently peel it off.
5. Apply with thicker edges for easy removal.

Rose *Age Defying, Enriched with Vitamin A and C.*

Our Rose Jelly Mask is packed full of antioxidants, designed to slow down the aging process. Targeting fine lines, wrinkles, pigmentation, uneven skintone. Whilst the added vitamins help with extra hydration, anti-aging and brightening. Perfect for normal/aging/dry/dehydrated skins. **Ingredients:** Corn Starch, Diatomaceous Earth, Rose Extract, Rose Petals, Sodium Alginate, Sodium Hyaluronate, Pectin.

Chamomile *Soothe and Repair.*

Our Chamomile Jelly Mask is designed to soothe, reduce redness, act as an anti-inflammatory, while deeply moisturising and calming the skin. It is rich in antioxidants to boost your skin's immunity. Perfect for dry/sensitive or sensitized skin. **Ingredients:** Corn Starch, Diatomaceous Earth, Chamomile Extract, Sodium Alginate, Sodium Hyaluronate, Pectin.

Tea Tree *Clear and Clarify.*

Our Tea Tree Jelly Mask is full of anti-bacterial properties. It is designed to promote good skin health by removing toxins, regulating oil flow, healing and to calm, whilst reducing breakouts and soothing irritated skin. Perfect for normal/oily/congested/acne skins. **Ingredients:** Corn Starch, Diatomaceous Earth, Tea Tree Extract, Sodium Alginate, Sodium Hyaluronate, Pectin.

Ultimate Hydration *Renew and Restore.*

It will restore the skin's surface by plumping and smoothing, giving you a healthy glow. Perfect for normal/sensitive/dry/dehydrated skins. **Ingredients:** Corn Starch, Diatomaceous Earth, Trehalose, Sodium Alginate, Sodium Hyaluronate, Pectin.

Firming Contour Mask

Tightening & Firming

Wholesale 250g

Description:

Working from the inside out, Our Lymphatic Enzyme Contouring Mask creates a tightening and firming effect on the skin. This constrictive function stimulates internal skin processes such as reverse osmosis. Reverse osmosis is responsible for supplying blood cells, filled with oxygen and essential nutrients to the upper layers of the skin while also promoting beneficial excess fluid drainage and clearing any blockages within the circulatory system.

Ingredients:

Albumen, Zea Mays (Corn)Starch, Argireline*, Allantoin, Aloe Barbadensis Leaf Juice, Panthenol, Silica, Dipalmitoyl Hydroxyproline, Butylene Glycol, 1,2-Hexanediol, Caprylyl Glycol, Illicium Verum (Anise) Fruit Extract.

*Argireline is known as acetyl hexapeptide-8 to target fine lines and subtle expression wrinkles (caused by repeated muscle movement). Argireline affects the nerve-to-muscle communication so that the muscle contractions do not deepen expression wrinkles, it also stimulates collagen production, further helping to increase skin firmness. Along with the skin-smoothing effects, argireline improves moisture levels in the skin.

Contraindications:

- . Rosacea, Eczema, Inflamed skin types.
- . Thin/ delicate skin types.
- . Active acne/open wounds.

Ideal Client:

1. Aging skin (other than contraindicated)
2. Photo-aging skin
3. Sallow/Dull/dehydrated
4. Any client who can benefit from increased blood flow and moisture levels

Directions:

1. Mix 5 g of powder and 5mL of water into a creamy consistency.
2. Brush upward and outward over face and neck area, using upward strokes, up and out to hairline.
3. Allow 10 minutes to dry. Feel the sensation of facial muscles contracting and increasing blood flow.
4. Soften down the mask with a wet brush and wipe off any residue with a wet/warm towel.
5. Apply a serum/ moisturizer for the skin type.
6. Avoid heat or steam to maintain long lasting tightness.
7. Due to muscle contractions, some lines may appear, but will disappear after a few hours.

Foaming Enzymes

Brightening & Smoothing

Wholesale 250g

Description:

A gentle treatment for all skin types looking for a thorough, gentle exfoliation without the granules, giving a brighter, smoother and more youthful complexion by promoting cellular turnover and improved skin texture, tone and hydration. Working with a combination of active enzymes which naturally breakdown dead skin cells and other impurities.

Ingredients:

Zea mays starch, Glucose, Sodium Cocoyl, Sodium Cocoyl Glycinate, Vitamin C, Hyaluronic Acid, Protease, Hydrolyzed collagen, Lipase, Papain*.

*Papain is an enzyme that is found naturally in papaya. Papain has anti-inflammatory and antibacterial properties that help in treating acne and preventing breakouts. Its natural and effective exfoliating properties brighten the skin by removing dead skin cells and flaky patches on the top layer of your skin.

Lipase- Lipase is an enzyme that breaks down the keratin protein in the upper layer of the skin, which bonds dead skin cells together. With this, the dead skin can gently slough off.

Directions:

1. Mix a small amount - approx. 5g with 5-6mls of water into a bowl
2. Mix fast into a foamy consistency.
3. Apply to the face/neck/decolletage with a mask brush (can use under steam).
4. After 5 minutes remove with a warm towel.
